PLEASE NOTE

If bobbling or piling occurs on this fabric, this is not a problem and will not have any detrimental effect on the wearability of the fabric. Removal by a 'de-fuzzer' is the most effective method and returns fabric to its original appearance.

Pile fabrics, by their very nature, do often have a tendency to pressure mark. This is a natural characteristic of this type of fine fabric. It does not in any way detract from the wearing ability of this quality fabric.

WASHING INSTRUCTIONS

Professional cleaning recommended.

FIRE RETARDANCY

This fabric conforms to BS 5852 FR3 CRIB Ignition Source 5 when used in conjunction with CMHR 35 Foam.
